

Colonel Sanders School

School Digital Citizenship Plan 2024-2025

Relevant contextual information about your school and School Development Plan:

- Colonel Sanders is a Traditional Learning Centre with 392 grade 1-4 students

Relevant evidence and data that informs your Digital Citizenship Plan:

- Our students are currently using school technology: either iPads or Chrome Books during the school day
- As a school with Grades 1-4 students, students are new to using digital tools for learning

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	December	April	June
Long term goal #1 Learners will understand the importance of protecting personal information online and apply appropriate strategies to keeping their information secure.	Safe: I know how to protect my personal information online	Short term goal #1 Students will understand the characteristics of a strong password and why it is important to have one	Short term goal #1 Students will create an age-appropriate unique password to access CBE network/technology	Short term goal #1 - Review resources on Digital Citizenship Insite Pages - Targeted lessons on creating strong passwords - Support from the Teaching and Learning with Technology Specialists as needed - Each school year, students reset their password to be unique and more complex from the year prior	Short term goal #1 All students in the school will have a unique, secure password to access CBE network/technology			
		Short term goal #2 Students will understand the importance of keeping their passwords secure and private	Short term goal #2 Students will keep their passwords private and their password on the front page of their personal agenda	Short term goal #2 - Review resources on Digital Citizenship Insite Pages - Targeted lessons on creating strong passwords - Support from the Teaching and Learning with Technology Specialists	Short term goal #2 All students will keep their passwords private and with support from an adult, know how to reset their passwords, as needed			

Long term goal #2 Optimize the utilization of digital resources/tools to support and enhance learning.	Balanced: I understand appropriate times and situations to use technology Involved: I leverage digital tools to learn, express my creativity and collaborate with others	Short term goal #1 Learners will understand what tools are approved to learn, express creativity and collaborate with others.	Short term goal #1 Learners will use novel digital tool to learn, express creativity and collaborate with others. Teachers will communicate with each student's families through Google Classroom about what technology is being used in the classroom and how it enhances the Curriculum or Program of Studies.	Short term goal #1 - Targeted lessons for software use connected to the learning intentions - Staff will access CBE vetted technology resources through the <i>Software Asset Management</i> (SAM) system - Targeted lessons demonstrating how and what to do if a specific choice does not match the Learning Intention	Short term goal #1 Learners will use Google tools to demonstrate their learning. Students will advocate for technology that aligns with the task and learning needs. Learners will match the learning intention the teacher has set with the appropriate tool.
